

“Your Window Into Their World”

The Virtual Dementia Tour® is a scientifically proven method of building a greater understanding of Alzheimer's disease.

Experience it for yourself at Clark-Lindsey on:

Monday, September 21st
World Alzheimer's Day

FREE 20-minute appointment slots are available from **4PM-6PM** on Monday, September 21st. Call **239-5201*** to make your appointment.

**Please note this number is voicemail only and will not reach a live person. Please leave a message & your call will be returned.*

What is the Virtual Dementia Tour®?

The Virtual Dementia Tour® is scientifically proven to help participants* better understand Alzheimer's disease and designed to increase awareness and understanding of those living with Alzheimer's disease or dementia.

Participants will be fitted with specially designed glasses, headphones, gloves and shoe inserts that mimic some of the symptoms of Alzheimer's disease and dementia.

Then, participants will be asked to complete 5 simple tasks during the 10 minute tour. Immediately following the exercise, participants have the opportunity to debrief the experience with a trained professional.

**** Please be aware that strobe lights are used during this experience. This experience is not intended for anyone who is currently experiencing challenges with memory loss.***
