

Be Someone's Shining Star

Spread a little light in someone's life.

What do you do when you want to go to church, the grocery store, hairdresser/barber, or out for a little retail therapy? You just hop in your car and be on your way. Now, imagine you had this want but you have no way to transport yourself. How depressing! You can brighten someone's day by the simple act of giving them a lift. Not only a lift by transporting them (you may be going their way anyway) but a lift to their spirits as well.

If being someone's shining star is an opportunity you'd like to know more about, please call Faith In Action at OSF HealthCare Heart of Mary Medical Center at (217) 337-2778.
