

### **Visiting Project Coordinator - Kinesiology & Community Health (129317)**

The Department of Kinesiology and Community Health (KCH) in the College of Applied Health Sciences (AHS) seeks a full-time (12-month) Visiting Project Coordinator. This position will coordinate project activities funded by federal and privately funded grants for joint projects between Human Factors and Aging Laboratory and Aging and Neurocognition Laboratory. Applications must be received by **May 4, 2020** for full consideration.

The major responsibilities of this position include, but are not limited to: Recruiting, screening, and scheduling of research participants; data collection; day-to-day organization of multiple research studies; assisting with information dissemination and information exchange with collaborating sites; and coordinating work schedules of lab members.

Qualifications: Bachelor's degree (required) or Master's degree (preferred) in psychology, gerontology, health, human factors, public health, or a field related to the position.

Experience: Experience conducting research with human subjects (required), preferably with older adults and/or individuals with disabilities.
