

Seeking Participants

Human Factors & Aging
LABORATORY

I ILLINOIS
College of Applied Health Sciences

This research study has been approved by the University of Illinois Institutional Review Board – Protocol #21089

The Human Factors and Aging Laboratory, housed within the University of Illinois Urbana-Champaign College of Applied Health Sciences, is seeking research participants for an IRB-Approved research study.

A Holistic Understanding of Domestic Robot Acceptance Among Older Adults

This study aims to learn more about how older adults think about robots to assist them in their homes. During this study, participants will be asked to discuss their thoughts on a variety of robots with the potential to help them in the home. Participation will last an hour and a half to two hours and participants will be compensated \$25.00 for their time.

Potential participants who are eligible for this study must be

65 years or older

Can read off a computer screen and size 14 font

Have computer and internet

Be able to zoom

Study procedures will take place on Zoom for the protection of our participants during COVID-19
